

WIZIWIG PROFILE RIBS

If you can throw a cylinder on the wheel, you can use a Wiziwig forming rib to easily, quickly create a variety of forms. Modify or combine the basic forms. Perfect for making matching sets.

- Each rib has 2 profiles and several lip or rim shapes.
- Made of 18-gauge stainless steel, laser-cut to shape.
- They do not flex or bend, and are very resistant to rust.

| Name | Shape | Size | Clay | Price |

| VICTORIA | Flute 12oz | 5¾" h x 4" w | 1 lb | \$21.75 |

PRINCETON CATALYST TOOLS

Not quite brushes, not quite palette knives, not quite ribs – but the best of all three! Catalyst tools are made from flexible silicone to give you a new form of creative expression with clay, glaze, paint, and slip. Wedges and Contours are ergonomically designed to fit your hand, so you have a direct tactile interaction with your work. They're good with clay, glazes, and slip. Mini-Blades have the working edges of wedges, but mounted on artist brush handles. For cleanup, you can pop the blades off the handles and put them back on when dry.

6 Wedge Ribs

MSRP is \$19.05 ea
You pay \$13.34 ea

12 Contour Ribs

MSRP is \$11.20 ea
You pay \$7.84 ea

6 Mini Blades

MSRP is \$13.55 ea
You pay \$9.49 ea
