

SKUTT POTTERS' WHEELS

With classic styling, precise construction, and elegant finish...

Skutt's electric wheels are high quality equipment for serious potters. Multiple models at different power levels in two body styles give you the choice of wheel for your individual throwing style and needs.

The original built-in splash pan design has a large work area ideal for water buckets, tools, and trimmings. The removable wheel head makes it easy to clean. The wheel head is recessed so the wheel body works as a splash pan.

The Prodigy's removable splash pan can be removed by twisting and lifting the wheel head and removing the one-piece splash pan. The Legend, Revolution and Premier have full-sized 1-piece splash pans.

Why Skutt Wheels?

Because all electric motors, even motors with the same horsepower rating, are not the same! Skutt wheels use industrial "continual duty" motors, designed to run at full load without overheating for as long as you want. Other wheels may use "peak rated motors" intended to provide full power without overheating only for short periods. High torque at low speeds is important for potters, but providing high torque at low speeds generates more heat in the motor. Heat is the greatest enemy of variable speed motors, leading to worn parts and eventual failure. The larger motors on Skutt wheels have superior insulation and more windings, which allow greater dissipation of heat, plus integrated fans for additional cooling, so they run cooler and last longer.

Wiziwig Clay Shield

Interlocking plastic panels wrap around the splash pan of most pottery wheels to keep most of the scraps, splats, and spatters in the splash pan where it belongs, not on your floors – and everywhere else!

Built-In Splash Pan Models

This design offers a large work area ideal for a water bucket, tools, and lots of trimmings. The removable wheel head makes it easy to clean up, and the wheel head is recessed into the wheel body to work as an integrated splash pan.

| | Motor | Centers | Reverse? | Price |
|----------------------------|--------------|----------------|-----------|-----------|
| TSC..... Classic | 1/3 hp | 150+ lbs | Yes | \$1475.00 |
| TSE..... Elite..... | 1/2 hp | 150+ lbs | Yes | \$1575.00 |
| TSP..... Professional..... | 1 hp | 400+ lbs | Yes | \$1750.00 |

Removable Splash Pan Models

The only wheels with a removable splash pan designed in one piece. The molded splash pan has more capacity than 2-piece splash pans, and the wheel stays cleaner and easier to use.
