### THICKNESS STRIPS

Made of Bamboo, it's a hard & durable material. These strips are used to roll out uniform slabs of clay. Use a rolling pin and a piece of canvas or slab mat (see page 70) to roll out your slab to the best thickness for your project. Having 3 pairs of strips allows you to stack the strips to get even more length or thicknesses for the job!

Measurements are 15 3/4" long x 3/4" wide. They come in pairs of 1/4", 3/8", 1/2" thick.
