**WAX & LATEX RESIST**

**Water-based WAX ON resist** dries quickly. Ideal for use on bisque, and on top of glaze for layered resist effects. Store at room temperature and mix well before use. If it freezes; let it thaw, mix it, then use it!

**Wax Off Resist** is a latex-wax hybrid that is peeled away. Apply on bisque or on top of glaze. Apply thick and allow to dry several hours or overnight. Wax Off MUST be removed before firing! **Helpful Hint:** Wet your brush and wring it out before using will help preserve your brush. If Wax Off freezes, shake well when thawed, but it may thicken. Clean brushes with soapy water for both products.
