STONEWARE CLASSIC: This line of glazes, including Opals, and Ice (translucent) glazes, formulated for cone 5-10 clay bodies. Fired finishes include gloss, high gloss, and flat, which range from bright and vibrant to earthy and subdued. Try them at various temperatures in both oxidation and reduction, and on various clay bodies for great color variations. Textured areas will enhance and highlight these glazes!

STONEWARE MATTE: These glazes go from solid, opaque coverage, while others are semi-transparent and variegated. Application thickness is key to making the matte glazes work for you. They work well on a variety of clay bodies and fire between cone 5-10.

STONEWARE CRYSTALS: This line of glazes contain colorful crystals in the glazes that are designed to melt and bloom during the firing, adding variation in color, finish, and movement to the glaze. These glazes begin with a base glaze, which can be found within the classic glaze lines. Information about these base glazes and food safety are found on the label or go to the Mayco website.

*** We stock these glazes in gallons! All other gallons are special order only.**

**** We only carry SW155 DRY in 10lb bags, all other DRY glazes are special order. Please call for availability and ETA.**
