Mayco glazes

Quantity discounts apply on multiples of the same item

Elements Glazes

These glaze are gorgeous natural earth tones in food safe formulas. Surfaces vary from gloss to matte, with subtle variations in each color: no two pieces will ever be the same! **Available in 4oz or Pints only**, except EL159 & EL161 are also available in gallons by special order.

Elements Chunkies (the 200 series) feature base glazes from the Elements line with the addition of crystals. Their varigations can be influenced by number of coats, combinations, surface textures, kiln atmosphere and temperatures. These glazes may move and flow during firing! Chunkies should not be used on surfaces that contact food or drink because of their fired surface characteristics.

Elements NOT marked in red are certified nontoxic. All items marked in RED bear CL Certified Health Caution Label - contains copper and may be harmful if swallowed. They are all food safe when fired according to the label instructions.

When you buy ...	**1-5 @**	**6-11 @**	**12+ @**
EL101 - EL161	$6.00	$4.80	$4.50
EL101P - EL161P	$17.50	$14.00	$13.13

	1-5 @	**6-11 @**	**12+ @**
EL207 - EL213	$7.95	$6.36	$5.96
EL207P - EL213P	$22.95	$18.36	$17.21

Mayco Micro Glazes - pints for $15.75 ea

These glazes develop small crystallization from the the zinc and silica during the cooling process. These can be fired at cone 5-10, but the crystallization may not form at the higher temperatures. Not dinnerware safe. Avoid food contact areas (rims of mugs, insides of plates and bowls, etc). SW219 needs to be tested for varying results. Sold in Pints only.
