LINER GLAZES

French Dimensions and Designer Liners are “puffy glazes” for raised design effects such as dots, stripes, squiggles, and outlines. You can use them over or under nonmoving glazes, and over or under each other. French Dimensions and Designer Liners are all food-safe, nontoxic, and nonhazardous when used under normal conditions. Even so, they may not be practical for use on surfaces in contact with food or drink.

COBBLESTONE GLAZES

SG201 Black and SG202 White are nontoxic textural glazes that make raised irregular chip-like textures when applied over any nontoxic glaze before the glaze firing. Heavier application leads to larger chip sizes. Use only on the outside of food or drink containers.

When you buy ... **1-5 @** **6-11 @** **12+ @**
 SG201 or SG202 (4oz) \$4.95 \$3.96 \$3.47
 SG201P or SG202P (Pints) \$14.50 \$11.60 \$10.15

SG201 Black applied over a white base glaze

SG202 White applied over a black base glaze

MAYCO SCULPTING MEDIUM

Mayco’s Sculpting Medium is a dimensional “glaze” that creates a white, raised surface. Use it to add structured design elements to your work using stencils, lace and stamps. The recommended application thickness is between 1/16” to 1/8”. You can also apply Stoke & Coat over the medium to add color! A layer of clear over the top of this medium will help smooth rough surfaces.

When you buy ... **1-5 @** **6-11 @** **12+ @**
 SG501..... 4oz \$4.95 \$3.96 \$3.47
 SG501P.....Pint \$14.50 \$11.60 \$10.15

FIRED SNOW

Fired Snow adds dimensional texture that simulates the look of snow when fired. And it’s not just for Christmas decorations any more! Apply up to ¾” thick. Tint or accent the Snow with translucent EZ Strokes to add color.
