THE BUMP TOOL

The Bump is designed to extend the potter's reach up to 18 inches when working in a hollow form: giving you the leverage you need to bump out, alter or heal seams in the clay. The aluminum rod is stiff but can be adjusted slightly to suit your needs, but do not bend more than once. The sponge end is a dense, chamois like, material with a hard center. The Baby Bump tool is 13" and perfect for smaller projects
